DETAILED OFFICE ACTION

Request for Continued Examination

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application on Aug. 14, 2008 after the final rejection of May 14, 2008. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Final Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on Aug. 14, 2008 has been entered.

Rejections Under 35 USC 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 15 is rejected under 35 U.S.C. 112, paragraph two, as indefinite for failing to particularly point out and distinctly claim subject matter which applicant regards as the invention. The term "acyl" identifies a functional group derived by removal of one or more hydroxyl groups from an oxoacid, e.g., sulfonic acids, phosphonic acids, and unidentified others. Since it is not possible to determine the identify of the oxo acid, this claim fails to particularly point out and distinctly claim the intended subject matter.

To increase the readability of the claims, Applicants are requested to simplify the illustration of Formula (1). For example, K and M should be illustrated as CH₂, W' should be illustrated as H, etc.
